It was at this juncture that young Talbot and his friend Latimer came down stairs, and, passing Dr. Talbot, saw what was up. The thief was so surprised to see them that he started to back toward the door, at the same time keeping boths guns handy. As he backed up one of the pistols fell from his grasp. Quick as a flash he put his foot on the weapon, and then reaching back in his pocket with his free hand hauled out a third revolver. This pistol, according to the description given by Dr. Talbot, was fully a foot long and must have been at least 48 calibre.

The thief next recovered his lost weapon and managed to get it back in his pocket. Then he looked at the three men and said:

"Quick, get me a hundred dollars or I'll fire."

"I tell you I would give it if I had it. but I haven't anything in the house," said Dr. Talbot.

"I don't know what kind of detectives you are, or what kind of detective work you call this." said the Magistrate, "but it don't go here."

Dr. Talhot's son, who had a good look at the thief, went to Police Headquarters to-day to see if he could find his face in the Rogues' Gallery.

The robbery of Ernest G. W. Woerz in his mansion on the northeast corner of Sixty-third street and Fifth avenue last Friday afternoon resembled in almost every feature the attempted hold-up of Dr. Talhot to-day. In both cases the burglar demanded \$100 and he adon'ed the same fearless method of proceedure.

May Have the Erroneous Idea That Fat Makes Fat.

Fat taken into the stomach does not necessarily make fat.

Thousands of physicians have prescribed cod liver oil for wasting diseases. They know that the fat or oil is not what is necessary to make fat or build tissue. They also know that the oil or fatty part of cod liver oil is very objectionable, it being too rich to be digested by a stomach weakened by disease.

The reason doctors prescibe cod liver oil is because it contains certain curative properties. It is to take advantage of these seems curative properties that they have so often tried to force their patients to take this horrible, greasy, vile-smelling, nauseating remedy.

It never was the oil of cod liver oil that created fiesh, but the medicinal properties contained therein—the oil has always been a hindrance. These medicinal elements of the cod's liver have for years been known to not favorably upon the stomach provided the stomach could stand the greasy oil.

They create an appetite for good, wholesome food, and cause the proper assimilation of the body-building properties of everyday food, so that strength, fiesh and general health are built; up by natural nicens.

Therefore, it is not the oil of the cod's liver that is valuable, but the medicinal elements contained therein.

Now, this explains why Vinol is the best preparation of cod liver oil made; it contains only the active medicinal elements taken from genuine fresh cods' livers, and in its process of making the oil is thrown away entirely.

Thus Vinol is recognized by the best authorities at home and abroad as a better fiesh and strength creator than any oily or greasy preparation that ever was made. Get Vinol from any of the following New York druggists:
